## **EXAMINER'S AMENDMENT**

### ***Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 21 of claim 64, the period has been changed to a semicolon.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: None of the prior art of record teaches or fairly suggests the device of claims 18, 37, 45 or 52 nor does it teach or fairly suggest the method of claims 30, 60, 64 or 67.

With respect to claim 45, it should be noted that modification of the closest prior art reference to Miller et al. teaches a filtering device for removing particles for arteries and veins which is circular in shape. Modifying the device of Miller et al. such that it had a "square area when the proximal portion assumed a three-dimensional shape", would destroy its ability to effectively filter out particles in arteries and veins which have a circular cross-section.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3732

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
